Dear Sir or Madam,

PHU HUNG PAPER AND PACKAGING CO., LTD manufactures and supplies finished self-adhesive labels to Hoi Vu Company Limited. The labels are components of the primary packaging on food products exported to the European Union.

Input materials of the finished label. The signer confirms or corrects the following list of input materials.

- Facestock: FASSON® pressure-sensitive facestock supplied to PHU HUNG PAPER AND PACKAGING CO., LTD (CÔNG TY TNHH GIẤY VÀ BAO BÌ PHÚ HƯNG) for the manufacture of self-adhesive labels supplied to Hoi Vu Company Limited, manufactured by Avery Dennison Materials Sdn. Bhd. Grade(s) actually used.
- Printing inks: CÔNG TY TNHH TOYO INK VIỆT NAM supplies printing inks to PHU HUNG PAPER AND PACKAGING CO., LTD, which prints these inks on the self-adhesive labels it manufactures and supplies to Hoi Vu Company Limited for food products exported to the European Union. Ink series and colours actually used.
- Optional — finished-label specification (dimensions / SKU) for the 370 ml, 540ml, 720 ml and 1,000 ml jars.

We hereby declare that:

1. Heavy metals — Article 5(4). The sum of the concentrations of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr(VI)) in the above finished self-adhesive labels does not exceed 100 mg/kg (0.01% by weight), in accordance with Article 5(4) of Regulation (EU) 2025/40 (Packaging and Packaging Waste Regulation). This requirement reproduces Article 11 of Directive 94/62/EC, which sets the same limit of 100 mg/kg for the same four metals.

Basis of this declaration. The finished self-adhesive labels are not separately tested by a laboratory; no test result dedicated to the finished label exists on file. The declaration above rests entirely on the supplier-issued documentation attached to this declaration and listed in the table below. By signing this declaration, the signer confirms that this documentation applies to the materials actually used to manufacture the labels supplied to Hoi Vu Company Limited, and that the input-material list above is correct for the materials actually used.
