P : +603 - 8925 0901

March 6, 2026

**# Spec: ASEAN LPM FASSON® PSA Products with Paper, PO, PE, PET, PP and PI Facestocks**

Dear Valued Customer,

Thank you for your recent inquiry about Substances of Very High Concern (SVHC) under EU Regulation (EC) No. 1907/2006 Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). The following statements exclude the regulatory status of the release liner material as this is generally considered to be removed before application.

Avery Dennison has implemented core business procedures for product integrity and safety. One of the components of this business process is ensuring compliance with applicable and relevant product / consumer safety legislation such as the EU Regulation (EC) No. 1907/2006 Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH).

The preliminary assessment indicates that our product(s) do not intentionally contain any substances identified as "Substances of Very High Concern" (SVHC) in concentrations above 0.1% w/w. This declaration aligns with the requirements of Article 33 of REACH, taking into account the latest SVHC list with **253 substances, published on 4 February 2026.**

The current list of SVHC candidates is found at: https://echa.europa.eu/candidate-list-table

Please understand that this declaration is provisional and we will follow up with the comprehensive results of the assessment once it is completed. The manufacturers / suppliers are solely responsible for the completeness and accuracy of the information provided to us. SVHC chemicals are not intentionally used in the manufacture of Avery Dennison products and there should be no incidental contamination during manufacturing, resulting in more than 0.1% w/w of SVHC (REACH defined trigger) substances in the Avery Dennison product(s).

The disclosed information referenced above is to the best of our knowledge and based solely on the information provided by our raw materials suppliers. We have not conducted testing and we recommend that you or your customer(s) make your own determination on the suitability of the product(s) listed above for your particular application. We believe this information is accurate and is offered in good faith. This information is subject to revision when additional knowledge / information is gained.

This product information contained in this letter reflects the current specifications as of the date shown. This technical information is for guidance only and is subject to change. This information applies to products supplied directly by Avery Dennison. Avery Dennison makes no guarantee of results and assumes no obligation or liability whatsoever in connection with the information provided in this letter. Avery Dennison recommends that the customer conduct qualification testing before printing, converting, or applying any product, and all Avery Dennison products are sold with the understanding that our customer has independently determined the suitability of such products for its purposes. If the product(s) listed in this letter undergo further processing by our customers, our customers are then responsible for assuring that the further worked material complies with all applicable requirements for their own application. All Avery Dennison statements, technical information and recommendations, including those in this letter, are based on tests believed to be reliable but do not constitute a guarantee or warranty. All Avery Dennison products are sold subject to Avery Dennison's general terms and conditions of sale found at https://label.averydennison.com/ap/en_sa/home/terms-and-conditions.html

Sincerely,

Product Compliance
