Dear Sir or Madam,

PHU HUNG PAPER AND PACKAGING CO., LTD (CÔNG TY TNHH GIẤY VÀ BAO BÌ PHÚ HƯNG) manufactures and supplies finished corrugated carton trays to Hoi Vu Company Limited. The trays hold glass jars of food products exported to the European Union. The tray is secondary packaging. It does not touch the food.

We hereby declare that:

Heavy metals — Article 5(4). The sum of the concentrations of lead (Pb), cadmium (Cd), mercury (Hg) and hexavalent chromium (Cr(VI)) in the above finished corrugated carton trays does not exceed 100 mg/kg (0.01% by weight), in accordance with Article 5(4) of Regulation (EU) 2025/40 (Packaging and Packaging Waste Regulation). This requirement reproduces Article 11 of Directive 94/62/EC, which sets the same limit of 100 mg/kg for the same four metals.

Basis of this declaration. The finished corrugated carton trays are not separately tested by a laboratory. The declaration above rests on the declarations and test reports issued by our raw-material suppliers, attached to this declaration or identified in the input-material section below. By signing this declaration, the signer confirms that this documentation applies to the materials actually used to manufacture the trays supplied to Hoi Vu Company Limited, and commits that the sum of the four metals above in the finished corrugated carton trays does not exceed 100 mg/kg.

Input materials of the finished tray. The signer confirms or corrects the following:

PFAS (Article 5(5)) does not apply to this packaging: the tray is secondary packaging with no food contact.

Yours faithfully,
