Dear Sirs,

Công ty TNHH Thương mại và Dịch vụ Công nghiệp Tuấn Huyền ("the Company") supplies LDPE nylon shrink film to Hoi Vu Company Limited, where it serves as secondary packaging for glass jar products exported to the European Union. This shrink film does not come into direct contact with food.

The Company declares that:

(a) the total content of lead, cadmium, mercury and hexavalent chromium (Pb + Cd + Hg + Cr(VI)) in the LDPE shrink film supplied to Hoi Vu Company Limited does not exceed 100 mg/kg, as required by Article 5(4) of Regulation (EU) 2025/40 of the European Parliament and of the Council on packaging and packaging waste (PPWR);

(b) the declaration in point (a) is based on the test results of report No. HT40625687101, issued by CTIC Vietnam on 26 June 2025, on an LDPE nylon sample (sample weight 50 g): lead, cadmium, mercury and hexavalent chromium were all not detected (N.D.), tested under the RoHS method and limits (Directive 2011/65/EU, as amended by Directive (EU) 2015/863);

(c) [[CONFIRM: the formulation and raw-material composition of the shrink film described above have not changed since the sampling date of 26 June 2025; the test results in point (b) therefore remain valid for the film currently supplied to Hoi Vu Company Limited.]]

Because the shrink film is secondary packaging with no food contact, the PFAS requirement of Article 5(5) PPWR does not apply to this component.

This declaration is valid for twelve (12) months from the date of issue.

Yours faithfully,

for and on behalf of Công ty TNHH Thương mại và Dịch vụ Công nghiệp Tuấn Huyền
